Currently living in Berlin

I'm a multidisciplinary designer with a background in filmography and motion design. I strive to create meaningful stories through visual content, whether it's a graphic design, a brand identity, a video or an animation, as much as I love empowering a team of designers to find their own meaning, every day, inside a project.

## WORK EXPERIENCE

12/2017 · Current

**Head of Design at Lightcurve for the Lisk Project**

Berlin

As the first designer of the Company, I was in charge of building the design team that I currently lead, which is made out of motion and product designers, both UX and UI. The team focuses on covering the needs of the Marketing team and Lisk's GUI products, as well as the corporate identities of both Lightcurve and Lisk, which were designed internally under my direction.
